

CUSTOMISED AND INTEGRATED TO TAKE YOUR BUSINESS PLACES

Committed to delivering goods in the most efficient, cost-effective way, we make it our business to understand our clients' individual freight movements and delivery needs.

We then combine the right suite of freight services with cutting edge technology and expert support, creating a customised solution that optimises the entire freight movement. Leveraging valuable resources, skills and expertise within our business we move, manage and handle a variety of cargo no matter its

shape or size. With access to over 300 established operations and agent's offices around the world, Barloworld Logistics connects you to a reliable freight network along global trading routes. Coupled with our comprehensive understanding of local and international markets, customs requirements and excise laws, we move your goods around the world on time, on target and on budget. As a world-class logistics hub for transcontinental trade, Barloworld Logistics is well positioned within the United Arab

Emirates, creating a competitive advantage for a wide range of international clients. Bordering high-growth economies, our Dubai office includes multiple warehouses next to the Jebel Ali Free Zone port, with modern 3PL facilities, warehouse management systems and trustworthy supplier network. Our services include:

- Smart audits
- Air and sea freight

- Overland transport
- Cross-border
- Project cargo and abnormal loads
- Rail
- Temperature controlled solutions
- Groupage services
- Heavy haulage
- Inventory management
- Information technology
